

Special Mission - Tsunami Relief

Lease Purchase Financing is an Expense Item rather than a Capital Item. There is No Need for a Vote for Authority Approval nor is there the cost of a Bond Underwriting

Lease Purchase Financing Can Be Used For:

- Aircraft
- Mission Support Equipment
- Hi Resolution IR & EO Cameras
- Moving Map Computers and Displays
- Microwave Downlink
- Air to Ground Radios
- Auxiliary Communications
- Mission Integration & Support
- Training

Complete mission equipment financing available

How "To Serve and Protect from the Air" --without a Capital Budget

Today's challenges in capital acquisition

Today's municipal finance managers are faced with a diverse array of challenges.

Across the nation public officials at the local, county and state levels of government are searching for new resources to expand tight operating budgets in order to meet the immediate and long-term needs of their communities.

This is true for a new or enhanced ISR installation.

Steps to obtain financing for your mission - ready aircraft

- Select the aircraft and ISR Equipment
- Obtain the vendor proposals with pricing
- Contact Everest and provide the above information along with audited authority financial statements
- Everest will submit a financing proposal for the lease financing
- If this is acceptable, sign the proposal and return it to Everest.

Documentation for the financing will be prepared by Everest and returned.

Upon receipt of the signed documentation, funds will be placed in an escrow account for authority vendor payment.

Who We Are

Everest Financial Network LLC was founded in 2001 by equipment finance professionals.

The aircraft and equipment financings arranged by the staff are in excess of three billion dollars.

Everest currently has two projects underway that are greater than two hundred million dollars each. We certainly can meet your ISR financing needs.
