READY FOR ANY MISSION

Rugged, economical and versatile, Caravans are unsurpassed as special missions aircraft. Their unmatched fuel efficiency and low operating costs keep you aloft longer to meet your mission needs. The Grand Caravan EX is capable of performing life-critical missions in remote locations, flying in adverse environments and operating on unimproved airstrips. Its high-wing design provides excellent ground visibility and a stable platform for intelligence gathering. We can configure your Grand Caravan EX specifically to accommodate sophisticated ISR systems, video equipment, still photography and infrared cameras.

ISR/Utility Combination

Dual Medical Station

THE WORLD IS YOUR RUNWAY

The Grand Caravan EX has legendary reliability that ensures you stay on schedule, not on the tarmac. For even greater access to remote locations, the Grand Caravan EX takes to the water with uncompromising speed and payload. Like all Caravan® aircraft models, the Amphibian is both easy and economical to maintain and far more fuel-efficient than its competitors. Regional airlines and charter services serving low-volume routes or traveling to remote destinations count on the Grand Caravan EX to deliver more payload and transport more customers for a healthier revenue on every trip.

ULTIMATE PERFORMER

The Grand Caravan EX outperforms all other single-engine utility turboprops, no matter the conditions or the mission. Even with a range of well over 900 nautical miles, a max cruise speed of 195 knots and useful load of more than 3,500 pounds, the rugged, versatile Grand Caravan EX gets in and out of short runways. This makes it the preferred aircraft of regional carriers, charter businesses and special missions operations with remote destinations.
